

Cost Analysis at Mgssk Bhalki

BHADRAPPA HARALAYYA

Hod And Associate Professor, Department of MBA, Lingaraj Appa Engineering College Bidar

Abstract- Until now, the sugar creation device can be considered 'Low maintenance' industry and is by through now not offered importance to this detest various other. Be that as it may, presently, the sugars business circumstance has adjusted. It really is recognized as one of the very most extreme urgent press for increasing the socio -financial construction of the provincial economy. Currently the sugar business adds to the domain not, at this point just with the guide of supporting the sugar wants yet also adds to creating electric pressure with the help of co-quality based biogase, improving, Ethanol and Bio-manures. Instruments through the use of the utilization with the aid of the above mentioned items, an evaluate of the business kind of sugar relationships with a solo reference MGSSK has been enrolled for tutoring at MGSSK Ltd's plant as an agreeable and spearheading project considering that 1982 and it has played out a urgent part inside the social enhancement of ranchers mainly and the financial framework in loved in expressions of working in various sections in the business. Zero in on the capacities and approaches of each department inside the company endeavor. The investigations aids with perceiving how divisions within an effort can function openly. The particular sugar undertaking is among the substantial enterprises that will contributes considerably towards the monetary development associated with the city. Better nevertheless, the sugar company utilizes provincial resources and battles hard to meet homegrown sugar needs and to fulfill the US of america's 'energy' wishes with these guidelines. The sugar business is viewed as an agro based absolutely venture. Subsequently the space of the business probably been inside the country state. The sugar undertaking upholds 50 million ranchers and his family, aside from work quickly with a huge number of individuals.

I. INTRODUCTION

The center sugar organization is an agro basically based association that takes part in considerable capacities to achieve socio - financial advancement in exact rustic conditions and locales in liked. It does not handiest includes a large situation inside the provincial economy yet on the no difference time adds to the monetary enhancement of their state. The particular sugar organization has the subsequent one position home for cotton materials inside the usa and shows its importance. This particular profits the work force almost 5 lakhs of men and women directly away and indirectly. India produces precious stone white sugar, khandasari and jiggery. There are around 450 sugar businesses running inside the US. Among the lone 120 are inside the individual quarter, 235 in the helpful quarter and 90 - 5 inside the p0ublic area. In the nation of Karnataka there are around 40 sugar ventures now and there are 40, 20 are inside the non-public zone, 18 are inside the agreeable zone and a couple of most significant are inside the public quarters. The sugar business is situated inside the geological area and has an inborn supportive relationship with the provincial masses. A few sugar businesses have their own special co-gen devices that give overabundance unification to the domain name or for the sugar endeavor a person birthday celebration in one of the considerable ventures that contributes fundamentally to the introduction of the gardening monetary framework. Much better whatever the case, the sugars business utilizes country things and fights difficult to fulfill home sugar call for also to satisfy the Oughout. S. 'force to be reckoned with' with its own limits. Sugar workplaces are thought about to be agro - based absolutely enterprises. Subsequently the area of the company is obviously inside the geological location. The sugar business helped 50 mil ranchers and his own family, besides for work quickly to a great number of individuals.

In advanced occasions, sugar fabricating plants are mulled over to be 'Low maintenance' industry and are

less fundamental for this undertaking than others. Yet, presently, the sugar venture situation has changed. It is analyzed as one of the most extreme significant media for improving the socio - monetary state of the agrarian financial framework.

II. STATEMENT OF THE PROBLEM

The co-operative sector performs an necessary function in the Indian sugar industry. Co-operative sugar factories are the processing unit hooked up by means of the farmer in the 103 rural area. The capital is amassed from the farmers for their within your means and social development. It is hooked up as per the co-operative norms and rules. These co-operative sugar factories have created adequate opportunities for employment in rural area. Today co-operative sugar mills are dealing with many troubles like aggressive environment, cyclic nature of the industry, excessive assist price payable to farmer, inadequate working capital, low yield of sugarcane out of date machinery in historic co-operative sugar factory, competition with Guru and Khandsari industry. Sugar export policy used to be unstable, extra authorities regulation, excessive value of production etc. due to the fact of this problem the working of many sugar factories is no longer comfortable. This is therefore, the proper time to launch some derivative enterprise to make the sugar industry financial viable.

III. NEED OF THE STUDY

The particular investigation is of amazing advantage and encourage attempted to enhance in the present value sound reasoning. There are legitimate business off the cost in the protection approaches are co-agent desired enterprises. There is a requirement for viable cost administration idea advancement and sugar ventures not yet operational cost to improve the orderly and goal situated sound arrangements. Obtain some answers concerning existing examine cost to programs and practices in the organization co-agent sugar industry locale Bidar Karnataka condition.

IV. OBJECTIVE OF STUDY

- To know the prime cost
- To know the work cost

- To know the material consumed
- To know the overhead
- To know the cost of production
- To consider cost management adopted by using MGSSK ltd.
- To be aware of the fee of manufacturing of products for particular length of time.
- To restore the income margin.

V. SCOPE OF STUDY

The scope of the find out about is to pick out the areas of manage to have higher over more than a few factors of value administration and choice related to price of production management is regarding in nature.

So it is an strive is to be made to discover the choicest fee of management for MGSSK. Sugar manufacturing facility and the manner in which they utilize the current property in higher way.

VI. DATA ANALYSIS AND INTERPRETATION

- Material Consumed in the year 2014-15 is 678295624,2015-16 is 9627192879 and 2016-17 is 3459625430.
- Prime Cost in the year 2014-15 is 6830262053,2015-16 is 96318009975 and 2016-17 is 3517712052.
- Work Cost in the year 2014-15 is 6852473972,2015-16 is 96473791909 and 2016-17 is 3643184934.
- Overhead in the year 2014-15 is 21395627,2015-16 is 1481871197 and 2016-17 is 7632271235.
- Cost of Production in the year 2014-15 is 6873869599,2015-16 is 97955663106 and 2016-17 is 11275456169.

VII. FINDINGS

1. According to standard cost sheet and the information which is given by the company, the cost of goods hold and profit/loss with respect to given period is to calculated.
2. In this study all expenses related to production , related to administration , related to Selling and

distribution and profit/loss is considered fixed period of production.

3. In this study I have calculate cost of production for three years with Expenses with respective years related periods.
4. Here the comparison between cost of production for three years is calculate as Mentioned

VIII. SUGGESTIONS

- Assess Company Finances: One of the quality fee slicing thoughts in the enterprise is to put together a distinctive report of expenses. Prepare a per month or quarterly earnings and costs file that will consist of all details. This will supply a typical notion as to which all areas ought to be regarded for cost reduction.
- Improve Personal Management: Instead of lying off employees, the administration can hiring new employees, and utilize the service of current employees to the fullest. Effective personal administration is the key to value of reduction.
- Review Marketing Strategies & Plans: As advertising is indispensable phase of any business a lot of finances is spend on it, get the detail of all advertising and marketing techniques and packages that are not giving excellent results. Reinvent these advertising plans and re-launch them in a new and high quality manner.
- Cut Administrative Expenses: administrative fee additionally has foremost part in the extend of the firms operation cost. Instead of buying tools and tools a higher value and manage approach is to take on rent, make positive that enterprise personnel use the workplace equipments to its fullest and do now not waste any, do now not use office telephones for personal purpose, use of electricity only if it is virtually required, make positive that is purchased is used in the great feasible manner.
- Learn Waste Management: In any business, services or manufacturing there is a certain to be waste, waste administration can be one of the key contributors to the price reduction, going paper less can assist the association to store loads of money.

- Review the Available Equipment: In all companies there are excessive equipment like, workplace tables, chairs, cupboards, desktops etc., both damaged or not used at all, such equipments can both be reused or disposed off.

CONCLUSION

The learn about on fee administration carried out in MGSSK Ltd. and to analyze the economic position of the company. The organization economic position is analyzed with the aid of the use of the tool of annual reports from 2010-13. The financial fame of MGSSK is good. The policy is adopted for administration of fee administration is accelerated the company's liquidity function is very good. With regards to the investments in cost of production there are adequate dollars are invested. Care must be taken by using the corporation not to make further funding in the manufacturing as it block in the funds, which could otherwise be wonderful utilized for the productivity purpose. Adequate provisions are created for meeting its future contingencies. On the complete business enterprise coverage on value administration is sound. The employer those experience proper liquidity function & accurate price of production. The average overall performance of the organization stable.
